Sold Estates

This applies to properties that have been sold, purchased or leased. All of these circumstances require our service whether it is by the owner to remove unwanted goods before sale/settlement or by the vendor/purchaser to remove their unwanted goods after they have moved in. The sale of a property may all come down to the settlement day and we have great experience in clearing properties to ensure there is a final sale on settlement.

We also remove goods left over from rental properties, which is a very common occurrence.
